

Oleksandr Lymanskyi

Software Engineer

Kyiv, Ukraine

+380972327873 | limanskyi@gmail.com | Skype: idea222 | <https://ua.linkedin.com/in/lymanskyioleksandr>

7 years in software development. Interested in lightweight technologies, unix, best practices in software development, team management, travelling. Team player, responsible, proactive. Was a mentor in java and hybris commerce education programs in Epam Systems.

Responsibilities: software developing, support, load testing, software optimization, requirements gathering, knowledge sharing, code review.

Industry experience: ecommerce, education, banking.

Summary

- Intermediate English (B2)
- Java (core, JAXP, servlet\JSP\JSF, JAX-WS, EJB, JPA, JTA, validation, JMS)
- Spring (IoC, AOP, MVC, security), Hibernate, MyBatis, SQL-92, MySQL, Postgres, MongoDB
- HTML, CSS, JavaScript, JQuery
- JUnit, Mockito, TDD, BDD (Fittesse), Scrum, Kanban, Jira
- Ant, Maven, Jenkins, SVN, GIT, JBoss, Tomcat, Hybris Commerce, Solr search

Education

National Technical University "Kharkiv Polytechnic Institute"

Bachelor of Software Engineering (2007 - 2011)

Work Experience

Java (Hybris ecommerce) Developer: July 2015 - June 2016, Skywind, Kyiv

- Everything5Pounds b2c retail

Implement backend and frontend tasks, performance test and optimization, integrate with thirdparty systems, refactor legacy code, add google analytics, review code.

Technologies: hybris 5.6 (impex, dao, hmc, processengine, yb2caccelerator, cms, media, hotfolder, solr search), java 1.8, spring mvc, rest, jax-ws, junit, jquery, mysql, jmeter, bower (js\css uglify).

Java (Hybris ecommerce) Developer: April 2013 - June 2015, EPAM Systems, Kharkiv

- BlackBerry b2b site:

Integrate hybris with third party services by rest, soap. Implement backend and frontend tasks.
Technologies: hybris 5.1 (impex, dao, hmc, csc cockpit, processengine, yb2baccelerator, subscriptionsservices, cms, email templates), spring mvc, jms, rest, jax-rs, jax-ws, jax-rpc, junit, java 1.7, jquery, mysql.

- Travis Perkins b2c sites:

PIM customization. Implement backend and frontend tasks. Pair TDD programming.

Technologies: hybris 5 (impex, dao, hmc, yb2baccelerator, cms), spring mvc, junit, java 1.7, mongodb, mysql, fitnesse, jquery.

- Doosan parts b2b site:

Implement backend and frontend tasks, bugfixing.

Technologies: hybris 4.8 (impex, dao, hmc, cms), spring mvc, jms, apache camel, xslt, java 1.7, jquery, mysql.

- Hybris training:

Learn hybris ecommerce platform, demo project customizations. Configure jenkins ci.

Technologies: hybris 4.8, spring mvc, jquery, mysql.

Java Developer: December 2011 - April 2013, Intetics Co., Kharkiv

- Pentaho report designer russian localization:

Fetching localization resources, debugging swing application, interacting with translators.

- Front end for a russian bank accounts management system:

SOA project. Implement ui for soap services, xml/excel template processing, bug fixes.

Technologies: jsf (richfaces, facelets), cdi, soap, jaxp, jax-ws, poi, jquery, jboss 7, maven.

- Site for simplifying US accountant certification. Tracking courses, licenses, requirements.

Linking course providers and accountants:

Implement frontend and backend, testing, bug fixing.

Technologies: spring (beans, security, mvc, test), hibernate (jpa), sitemesh, jsp, velocity, jquery, junit, tomcat, maven, mysql.

Java Developer: June 2009 – October 2011, ECWO organization, Kharkiv

- Solution for universities: accounting, entrance campaign, manage student's education, employee's business processes, document circulation, schedule.

Software development, integration with government entrance campaign api, software update and refactoring.

Technologies: java 1.4, java 1.6, swing, ejb 2, jdbc, xslt, apache fop, jsf 2 (richfaces), junit, ant, maven, jboss 4, jboss 6.1, tomcat 7, oracle 9.
